It's full of corrupt traitors that want us all dead. Not bringing a gun could be a huge mistake if you ask me

 6 If I was driving, I would be going armed. HOWEVER, I would also not be posting it on a site that is obviously harvested and monitored by the gestapo.

 1 Good rule of thumb: never say anything on td.win (or anywhere online) you wouldn't say directly to a LEOs face.

1 I honestly don't trust vpns at all. I just have no idea how they work. My uneducated ass guesses that they don't keep your data safe because you're routing all your information through a specific known server

1 🤔 hey man I'm just going to be pissed if everyone talks a big talk and then I'm the only one that brings something to defend myself with. I'm only bringing a weapon if their is enough people doing the same so we can all have each other's backs. If their is only a few of us they're going to single us out man

You're recommending that we break the law, and inferring that we would do it to cause violence.

This is major sus. Stop it or GTFO.

Yes I am recommending you break illegal laws. Only morons are told they can't bring guns somewhere where it's the only place on earth where you have a right to bring a gun on every inch of land in the nation. Dc writes our laws, that means they are subject to our laws and that means the 2nd amendment shall not be infringed.

Have fun letting big daddy government tell you that you can't bring a gun anywhere eventhough your constitution states specifically that they cannot do that legally. It is your duty to infringe upon illegal laws. If every patriot brings a rifle to dc and defends one another they can't arrest any of us for not following any of their anti human illegal laws
